YANKEES DEFEAT GIANTS BY SCORE OF 3 TO 0

One Member Posse Accidentally Killed in Pursuit Robbers

BANK BANDITS MAY BE IN VICINITY OF NEVADA STATE LINE

(By Associated Press)

LOYALTON, Cal., Oct. 5.—One man, a posse member, has been killed, and another wounded, in the pursuit of the two men who yesterday held up and robbed the Sierra Valley bank here of \$15,000 and escaped to the East Side valley, taking, it is believed, on horses the virtually abandoned Hones pass road between Sacramento and Virginia City. The man killed, Charles Boak, was shot late yesterday afternoon in mistake for a bandit, and died before assistance could reach him. One bandit, believed to be named Mahoney, is known here, according to District Attorney Neville of Sierra county. The men are believed to be headed toward Cisco or Summit on the Southern Pacific. No details of the wounded man were received.

COLLISION OF TRAINS KILL MANY ABOARD

(By Associated Press)

PARIS, Oct. 5.—Two suburban passenger trains collided in a tunnel leading into St. Lazaire station, killing a number of persons and injuring many others. The wreckage immediately caught fire and it is feared the number of fatalities might be large.

HIGHER RATES BY RAILROADS ARE REFUSED

(By Associated Press)

WASHINGTON, D. C., Oct. 5.—Railroad proposals to increase the transcontinental freight rates on lumber and forest products moving from Oregon, Washington, Utah and Idaho to El Paso, by 25 per cent were held not justified by the interstate commerce commission today.

The commission also refused the railroads' request for an increase on lumber freight rates to and from intermediate points amounting to 23 1/2 per cent. The rates never have been in effect, having been proposed by the railroads on June 1 and suspended by the commission.

MERCHANT MARINE IN NEED SUPPORT

(By Associated Press)

NEW YORK, Oct. 5.—Until America as a whole awakens to the fact that the national economic stability is dependent upon the establishment of a national merchant marine, there can never be an American merchant marine, Chairman Lasker, of the shipping board, declared in an address today before the Associated Advertising Clubs of the World.

HIGHTOWER IS CALM AT TRIAL MURDER CHARGE

(By Associated Press)

REDWOOD CITY, Cal., Oct. 5.—When superior court opened today District Attorney Swart resumed his dramatic recital of how he expected to prove that the roving bandit, William A. Hightower, murdered Father Heslin. Hightower was tired looking and scratched the prosecutor and jury closely.

BANK HOLDING SAFE KEEPING MILL CLEANUP

In the front of the Tonopah Banking Corporation there is a deposit of three tons of concentrates and a large quantity of precipitates that were delivered from the mill of the Silver Hills Nevada Mines company that are estimated to have a gross value of \$7000. This was the result of a clean-up at the mill for the last half of September, and according to Harry C. Stimler, the precipitates have a value of \$8 a pound and the concentrates are worth 80 cents a pound. The shipment to the Selby smelter will not be made until another consignment is delivered from the Tule canyon property, which, however, will be in the course of the next few days.

The clean-up at the Silver Hills mill for the month of September amounted to net earnings of about \$10,000. The mill is treating an average of 20 tons daily, but providing the cyanide equipment was available, the capacity could easily be increased to 50 tons daily.

Announcement was made today that the Silver Hills Nevada Mines company had practically concluded negotiations for the taking over of a valuable property which will be merged with the Tule canyon holdings. The time is yet premature to disclose the name of the new holdings, but it is expected that the papers will be signed within the next two weeks. This is probably accountable for the demand for shares on the stock exchange, and also the increased sales.

RAILROAD STOCKHOLDERS' MEETING IS POSTPONED

The annual meeting of stockholders of the Bullfrog & Goldfield Railroad company, which was to have been held at Goldfield tonight, has been postponed until next Wednesday, October 12. This action was taken owing to the impossibility of several interested parties reaching the main offices of the company on scheduled time.

OREGON AGGIES NAME INDIAN AS COACH

(By Associated Press)

CORVALLIS, Ore., Oct. 5.—Guy L. Rathburn, who coached a successful University of Indiana baseball team for two years, has been named baseball coach at the Oregon Agricultural college here. Fall baseball practice is planned.

VIOLATION OF AGREEMENT BY REDS CHARGED

(By Associated Press)

RIGA, Oct. 5.—An American relief administration courier, on his way from Petrograd to Riga, was searched and some personal effects seized by Russian soviet frontier authorities at Yanberg on Tuesday, he reported on arrival here. He brought a sealed pouch containing relief administration correspondence which he declared he only saved from seizure by the soviet authorities after a struggle.

This violation of the agreement with the soviet government has been reported to Colonel Haskell, head of the relief administration work in Moscow.

WIVES OF OIL STRIKERS ASK MEN TO QUIT

(By Associated Press)

BAKERSFIELD, Cal., Oct. 5.—Over 100 women, wives, daughters and mothers of strikers, set forth today for the Kern river oil field to interview the men who remained at work to try and get them to quit. The move was made at the request of the strike leaders. There were no other changes.

ORLEAN SHAFT HAS ATTAINED 670 FT. DEPTH

There is a great deal of activity in evidence at the Orlean property at Hornsilver, operated by the Orleans Hornsilver Mines company, according to word received today from Secretary H. D. King, who is making his headquarters in Goldfield. The shaft last night had attained a depth of 75 feet below the 600 level, and at the rate progress is resulting it is hoped to reach the 700 level by October 15. At that point a station will be cut regardless of whether the vein is picked up on the dip. If it is caught then drifting will start, and if it is not reached, then crosscutting will be started to intersect it. The general belief prevails, however, that the vein will be reached and those interested in the company are anxiously awaiting the outcome of the work that is now so well in hand.

ARROWHEAD IS PREPARING TO LOWER SHAFT

Reports from the main Arrowhead property are to the effect that a full force of men is being employed and that some production of ore is being made from the third level. The shaft workings are being repaired and put in condition to permit of the resumption of shaft sinking, and an ample supply of timber has been delivered on the ground to not only permit of this work being finished, but also to allow of sinking. No definite date has been announced as to when sinking will be started, but it is believed that everything will be in readiness to allow of the broadened scope of operations being brought into effect within the next few days.

LABORITES MAY LAUNCH PARTY OF THEIR OWN

(By Associated Press)

INDIANAPOLIS, Ind., Oct. 5.—While the adoption of a declaration favoring the creation of a new political party of organized labor and disaffected farmers, the convention of the United Mine Workers of America came to an end.

(By Associated Press)

SAN JOSE, Cal., Oct. 5.—(Continued from page 1) The chief item before the annual convention of the State Federation of Labor here today, Hugh Ernest of San Francisco and Earl Brown of Los Angeles have appeared as candidates for the presidency, succeeding Daniel J. Murphy of San Francisco.

Resolutions before the convention urge national legislation to forbid the use of the national government insignia for advertising purposes, state legislation to encourage motion pictures as a means of instruction in the public schools, a campaign against wage reductions, in the Moreland navy yard, financial and moral support for striking oil workers, legislation to prevent the importation of Mexican labor under bond and entering the 44 hour week of the existing trades. Another resolution urges a further investigation of the case of Thomas J. Mottley and Warren E. Billings with a view to repressive elements.

OLD OIL MAN THINKS FISH LAKE WINNER

"The Fish Lake valley oil fields look good to me," remarked Frank Hicks, an old-time driller, who has been on "oil" service in the fields of the states of Texas and California, Mexico, who journeyed here from Big Pine, California, for the sole purpose of seeing what was doing at the Fish Lake Merger well. "A formation as hard as that in Fish Lake must have a tremendous pressure underneath, and when oil is encountered in commercial quantities, as it unquestionably will be, gushers should develop. I visited the well of the Fish Lake Merger company and saw with my own eyes bubbles of oil come out with the ballings, which certainly is a live indication that oil is going to be encountered. I really believe this well is going to prove a big producer, and the good news may happen before you know it."

The Fish Lake Merger of 1919 received word this morning from Charles W. Taylor, president and general manager, who is at the seat of operations, that the well has attained a depth of 800 feet, and that progress was now resulting at the rate of 50 feet each day. A change in formation has occurred and now the drill is going through lime, and the indications for oil are showing brighter right now than at any time since drilling operations started.

FOUR NATIONS ARE VOTED INTO LEAGUE

(By Associated Press)

GENEVA, Oct. 5.—Four non-permanent members of the council of the league of nations, China, Belgium, Brazil and Spain—were elected by the assembly on the first ballot today.

STILL EXPLODES AND SETS FIRE TO A REFINERY

(By Associated Press)

MARTINEZ, Cal., Oct. 5.—A fire starting from the explosion of a still is threatening the destruction of several units of the Associated Oil company refinery here. So far no human life was hurt.

The explosion destroyed the still and started a fire which spread along the pipe line according to reports here. A fire company was sent from Martinez to supplement the refinery apparatus, and returned with the announcement that the fire had been put out along the pipe line and was confined to the vicinity of the still. Later this company was called to the refinery. The fire penetrated telephone lines and virtually isolated the plant.

NEGRO BANDIT INVADERS HOME IN FORT WORTH

(By Associated Press)

FORT WORTH, Texas, Oct. 5.—A posse is searching the woods around Lake Worth, a pleasure resort near here, for a late negro bandit who last night had up to him members of a house party and escaped with a woman jewelry after abducting her. The posse is attempting to track him down and return him to his home.

TONOPAH 76 IS BEING WORKED BY WEST END

Development of the Tonopah 76 property is progressing satisfactorily to the satisfaction through the contract entered into with the West End Mining company. During the month of September 120 feet of underground work was performed in the Tonopah 76 ground, operations being conducted from the 800 level, where crosscutting is in order to intersect the series of veins that are owned by the Tonopah 76. When the objective is reached raising will be started and the outlook is favorable for the Tonopah 76 to eventually enter the list of producers.

TRAIN SERVICE TO SOUTH DISRUPTED

Traffic over the Tonopah & Tidewater will be resumed tomorrow morning when the train will go out on scheduled time. The first train carrying mail and express to reach Goldfield since last Wednesday afternoon will arrive tonight, connection having been made with the Salt Lake road at Cruik. However, the road repairs between Ludlow and Cruik will be completed today and regular service will again be in order, when connection will be made with the Santa Fe.

DISORDERLY DRUNK IS CLIPPED OVER EYE

Carl Clem, an arrival in Tonopah two months ago to accept employment in one of the mines, was arrested last night by Deputy Sheriff James Timlin upon a drunk and disorderly charge. Clem was making a nuisance of himself on Main street about 8 o'clock, and when he refused to desist was clipped over the left eye with a gun by the deputy. When Clem appeared before Justice Cuddy this morning he was a sorry looking object, and feeling sorry for him, Justice Cuddy reduced the fine to \$10 or five days in jail. Clem elected to take a vacation.

CAPTURE FIRST GAME IN WORLD'S SERIES WITH EVIDENT EASE

(By Associated Press)

NEW YORK, N. Y., Oct. 5.—The Yankees took off the opener of the world series by annihilating the Giants, 3 to 0. "Mays" submarine ball tied the Giants into knots, although Frank Franks, the National leaguer's third baseman, helped himself to four hits. Babe Ruth accounted for one of the Yankee runs, but could not oblige the 55,000 fans with a home run. McNally's meal home in the fifth inning was the base running feature of the game.

(By Associated Press)

NEW YORK, Oct. 5.—The weather this morning was fair and cool, with a light southwest wind. Indications are that favorable weather would greet the Yankees and Giants when they meet in the first game of the world's series this afternoon. The crowd was in line for tickets, some remaining all night. The hat colors named are Douglas and Snyder for the Giants and Mays and Schanz for the Yankees. "I am confident, but not overly so," says Manager Hughson of the Yankees. "I rely on the courage of my players and their good team unity and Morrows, the Giants' leader."

Seven in the hour of world series baseball were two teams so evenly matched. Led by Ruth, Schanz, when others the series hopes of the Yankees and the probability of the Giants, the Americans actually started their way to the last pennant while Morrows' men with apparently greater odds to overcome, seemed victory through their daring and cleverness. The giant hunters will probably find the starting combination of Miller, Peck, Mottley, Rath, Mottley, Peck and Ward one of the toughest they have ever been called upon to solve. The game is always a dangerous, bitter and bitter, who precedes any so by no means easy. Then comes the mighty Ruth. To pick him means facing Earl Bob Mays, and to pick to him means that at any time the ball might go sailing over the stands for a home run.

The entire Morrows' organization, having a strong hitting lineup, is noted for its daring on the bases.

The final score follows:

CUTS DISCOUNT RATE

PHILADELPHIA, Pa., Oct. 5.—The federal reserve bank of the Third district today reduced its rediscount rate on all classes of paper from 5 to 4 1/2 per cent.

That the Tonopah Drainage & Sewer company has never paid expenses; that only for large amounts of cash advanced by J. G. Crumley to take care of overdue bond issues and operating expenses; the plan of Tonopah would be in the same position for sewer service that it is for gas service.

Under the above conditions would the town of Tonopah be served better by organizing some sanitary movement whereby all the people would pay their pro rata toward the sanitation of our community, thereby clearing up the present appalling sanitary conditions, instead of having an organization for the purpose of throttling a necessary industry which is struggling for its very existence?

Such a movement, if successful, would have the effect of materially reducing all sewerage service charges, as the Tonopah Sewer & Drainage company has on many previous occasions offered to voluntarily make a reduction of 25 per cent.
